About SMQSS

SMQSS is a smart queue management system built for institutions that serve students and the public. It replaces manual queuing with a digital system that keeps service flowing smoothly, reduces wait times, and gives management clear visibility into daily operations. The system is easy to use, works on standard computers and printers, and is accessible from any web browser.

Trusted By

- SMQSS is currently deployed and in active use at:
- > Makerere University
 - > Ministry of Internal Affairs
 - > Various startup businesses across Uganda
- Copyrighted and patented with the Uganda Registration Services Bureau (URSB).*

Terms & Conditions

1. Payment:

Monthly or annual subscription, payable in advance.

2. Renewal:

Subscription auto-renews unless cancelled in writing 30 days before the renewal date.

3. Ownership:

This subscription does not grant ownership of the SMQSS software or system. Subscribers are entitled to use the system solely for the services it provides to their business operations. No rights, title, or interest in the software, source code, or intellectual property are transferred to the subscriber.

4. Device Ownership:

Only business entities in formal partnership with SMQSS have the right to permanently own the devices on which the software runs. All other subscribers use the software on devices that remain the property of the subscriber and are not covered under this subscription.

5. License:

Single-institution, non-transferable, revocable upon non-payment.

6. Hosting:

Infrastructure maintained by SMQSS on cloud servers; subscriber accesses via web browser.

7. Support:

Email and remote technical support included in the subscription.

8. Termination:

SMQSS reserves the right to terminate access upon 30 days' notice for breach of terms.
